

VALUE-ADDED INGREDIENTS

- ✓ **Curowhite® - White Curcumin**
- ✓ **Cureit® - Turmeric**
- ✓ **Fitnox®**
- ✓ **Actbiome®**
- ✓ **Rephyll®**
- ✓ **BerbiQ™**

VALUE-ADDED INGREDIENTS

Vitalo Life Science® we're dedicated to pioneering the future of nutrition through innovative value-added ingredients that are not only effective but also clinically proven and have unique benefits and selling proposition ranging from being functional based with clinical trials, effectiveness, etc. Our mission is to empower individuals to live healthier by providing them with the highest quality backed by scientific research.

Curowhite® - White Curcumin

White Curcumin derived from curcumin, is obtained by the catalytic hydrogenation of the curcumin and followed by the encapsulation to get more bioavailability.

Cureit® - Complete Natural Turmeric

Clinical study report for Rheumatoid Arthritis, Management of Sarcopenia in Healthy Elderly Subjects, Delayed Onset Muscle Soreness Induced by Eccentric Continuous Exercise.

Fitnox® - Unique Natural Ingredients

Unique natural ingredients formulation for physical endurance, reduces the oxidative stress to the muscles and tissues during exercise.

Actbiome® - Innovative natural formulation

Innovative natural formulation for enhanced gut health.

Rephyll® - Phyto cannabinoid from Black Pepper

Effective natural pain management from Black Pepper.

BerbiQ™ - Full spectrum of Berberine

Full spectrum of Berberine loaded with OMICS Technology and enhance metabolic health.

Miron™

Miron is a one stop solution addressing all these challenges with no metallic taste or off smell for Iron supplements and delivers superior bioavailability and efficacy by SELGM technology.

PEA's™

Actions on multiple molecular targets while modulating multiple inflammatory mediators provide therapeutic benefits in many applications, including immunity, brain health, allergy, pain modulation, joint health, sleep and recovery.

TYQUC™

Quercetin complexed with synergistic bioactive molecules with patented OMICS technology. Quercetin helps stabilize the cells that release histamine in the body & thereby has an anti-inflammatory & anti-histamine effect.

PEA.IN™

Introducing PEAIN, our groundbreaking product that harnesses the power of Palmitoylethanolamide (PEA), enhanced with our proprietary OMICS technology.

PEA.IN MAX™

Water Dispersible Palmitoylethanolamide (PEA) is an endocannabinoid-like lipid mediator with extensively documented anti-inflammatory, analgesic, antimicrobial, immunomodulatory and neuroprotective effects by OMICS Technology.
